Hi Dave, I did not receive a call in number nor invite from you for your 10:00 call. This was the last email I received from you below.

Happy Sunday Chris! ☺ I've been working with Kathy Atencio, but in short Area Command essentially made impossible demands in terms of data processing today. It was not possible to compare Region's 6, 8 & 9's sample & results data with submissions to HQ be the end of the day today. Its not practical to explain by text the complications of adding other Region's data to the review request, but that created too much complexity to resolve today. Kathy was hoping to follow up with that with Area Command & the Incident Planning Section Chief, but I'm not sure if she was able to do that.

Another unresolved question is who will serve in the Incident EU leader role. Dan Wall is de-mobing Monday. Nothing settled so far. Please let me & Kathie Atencio know your schedule for release from the Mine Division if / when you have details.

I plan to fly in to Durango Monday evening & leave Wednesday. I will be functioning as a Union rep for employees who request one during IG interviews scheduled next week. I'm swapping out with another Union rep, Britta Copt on Wednesday. I'll probably be in Silverton sometime on this trip, hope to see (meet!!) along the way.

To the extent you can reach me, let me know if you need anything.
